TABLE OF CONTENTS

NUMBER 1, April 1959

Cima, L., Fassina, G. and Pozza, F., Total body X-irradiation and nucleotide content of isolated rat liver cells 1

Dick, D. A. T., The rate of diffusion of water in the protoplasm of living cells 5

Bloom, G. and Zeitler, E., Quantitative electron microscopy. Determination of dry mass and thickness in a population of casein particles 13

Caravaglios, R. and Franzini, C., Electrophoretic patterns of soluble proteins extracted from three granule fractions from rat liver tissue. 22

Flickinger, R. A., Hatton, E. and Rounds, D. E., Protein transfer in chimaeric *Taricha-Rana* explants 30

Austin, C. R. and Bishop, M. W. H., Differential fluorescence in living rat eggs treated with acridine orange 35

Stewart, P. A. and Stewart, B. T., Protoplasmic movement in slime mold plasmodia: The diffusion drag force hypothesis 44

Battin, W. T., The osmotic properties of nuclei isolated from amphibian oocytes 59

Mota, M., Karyokinesis without cytokinesis in the grasshopper 76

Schjeide, O. A. and Urist, M. R., Proteins and calcium in egg yolk 84

Abbot, M. T. J. and Grove, J. F., Uptake and translocation of organic compounds by fungi. I. Microspectrophotometry in the study of translocation 95

Abbot, M. T. J. and Grove, J. F., Uptake and translocation of organic compounds by fungi. II. Griseofulvin 105

Barch, S. H. and Shaver, J. R., The effect of enzymes on prolongation of fertilizability of frog eggs 114

Chase, W. H., Distribution and fine structure of elastic fibers in mouse lung . 121

Sibatani, A., *In vitro* incorporation of ^{32}P into nucleic acids of lymphatic cells. Effects of X-irradiation and some other agents 131

Evans, H. J., Neary, G. J. and Tonkinson, S. M., The effect of oxygen on the induction by gamma radiation of mitotic delay in root tips of *Vicia faba* 144

Kimball, R. F., Caspersson, T. O., Svensson, G. and Carlson, L., Quantitative cytochemical studies on *Paramecium aurelia*. I. Growth in total dry weight measured by the scanning interference microscope and X-ray methods 160

Kimball, R. F. and Barka, T., Quantitative cytochemical studies on *Paramecium aurelia*. II. Feulgen microspectrophotometry of the macronucleus during exponential growth 173

BRIEF NOTES

Janković, B. D., Histochemical identification of antigens in red cells 183

Klein, H. P. and Greenfield, S., Effects of mitochondria on lipid synthesis in yeast homogenates 185

von der Decken, A. and Hultin, T., The effect of ribonuclease on the amino acid dependent pyrophosphate-ATP exchange by the "pH 5 fraction" of rat liver 188

de Terra, N. and Rustad, R. C., The dependence of pinocytosis on temperature and aerobic respiration 191

NUMBER 2, MAY 1959

SANDRITTER, W., FISCHER, H., SÜSSENBERGER, K. und SCHIEMER, H. G., Quantitative histochemische Untersuchungen zum Nachweis der Protaminspeicherung von Mäuseascitestumorzellen 197
POGO, A. O. and CORDERO FUNES, J. R., An experimental study of flare in a new microspectrophotometer 205
HILL, M. and PRASLIČKA, M., Characteristics and significance of the elementary hematopoietic function as revealed in spleen tissue of lethally-irradiated frogs 214
PILERI, A., LEDOUX, L. et VANDERHAEGHE, F., Etude de l'absorption de la ribonucléase par les cellules de la moelle osseuse et par les cellules des tumeurs d'ascites 218
Ts'o, P. O. P. and SATO, C. S., Synthesis of ribonucleic acid in plants. I. Distribution of ribonucleic acid and of protein among subcellular components of pea epicotyls 227
Ts'o, P. O. P. and SATO, C. S., Synthesis of ribonucleic acid in plants. II. Phosphate-^{32}P incorporation into the ribonucleic acid of the pea epicotyls 237
TRAUB, A. and GINZBURG, Y., The response of glycolytic and non-glycolytic mammalian cells to the inhibitory action of fluoropyruvate 246
HAGSTRÖM, B. E., Further experiments on jelly-free sea urchin eggs. 256
EVANS, H. J. and TONKINSON, S. M., A paradoxical effect of aeration on the accumulation of root-tip metaphase cells by spindle inhibitors 262
LESLIE, I. and SINCLAIR, R., The action of thyroxine and triiodothyronine on human cells growing in tissue culture 272
SRINIVASACHAR, D. and PATAU, K., Proportionality between nuclear DNA-content and Feulgen dye-content 286
WOERNLEY, D. L., CARRUTHERS, C., OHRT, J. M. and WISSLER, F. C., A difference in nucleic acid preparations from Ehrlich ascites nuclei and calf thymus nuclei 299
DEUTSCH, K. and ZAMAN, V., An electron microscope study of *Entamoeba invadens* Rodhain, 1934 310
SPOERL, E. and LOONEY, D., Synchronized budding of yeast cells following X-irradiation 320
BERGNER, P. E. E., Dynamic aspects of a method in tracer kinetics 328
LOWENSTEIN, L. M., Studies on reticulocyte division 337
SEIDEN, G. E. and KOREY, S. R., The characteristics of a cell line derived from white matter of *Macacus rhesus* 345

BRIEF NOTES

SCHULTZ, P. W., A note on Ω-bromoallyl glycine-induced pycnosis in explanted chick embryos 353
DEUTSCH, K. and DUNN, A. E. G., The effect of ribonuclease on *Hartmanella astronyxis* 356

NUMBER 3, JUNE 1959

PITTMAN, D. and PEDIGO, P. R., Photoreactivation studies on yeasts. I. Ultraviolet inactivation and photoreactivation of respiration-sufficient and respiration-deficient yeasts 359

PITTMAN, D., RANGANATHAN, B. and WILSON, F., Photoreactivation studies on yeasts. II. Photoreactivation of the ultraviolet damage producing respiratory deficiency in haploid and tetraploid yeasts 368

MONTGOMERY, P. O'B. and BONNER, W. A., Ultra-violet time lapse motion picture observations of mitosis in newt cells 378

LUCY, J. A. and RINALDINI, L. M., The amino acid metabolism of differentiating skeletal myoblasts *in vitro* 385

MARTIN, F. and BRACHET, J., Autoradiographic studies on the incorporation of amino acids into spermatozoa 399

UYEKI, E. M., LEUCHTENBERGER, C. and SALERNO, P. R., Effect of X-irradiation on the DNA content of individual nuclei of rabbit bone marrow 405

PERRY, R. P., On some properties of growth in a synchronized population of *Escherichia coli* 414

QUASTLER, H. and SHERMAN, F. G., Cell population kinetics in the intestinal epithelium of the mouse 420

PERLMANN, P., BOSTRÖM, H. and VESTERMARK, A., Sialic acids in the gametes of the sea urchin 439

EDDY, A. A., The probable nuclear origin of certain of the bodies released from yeast protoplasts by ultrasonic treatment 447

ANDERSON, N. G. and CANNING, R. E., Studies on isolated cell components. XII. An ultracentrifugal analysis of soluble proteins from rat liver, brain, kidney, and testis 465

SOBIN, L. H., BLOOM, G. and ZEITLER, E., Quantitative electron microscopy. A comparative study by contrast determination and shadow casting . . 472

DE BRUYN, P. P. H. and SMITH, N. H., Comparison between the *in vivo* and *in vitro* interaction of aminoacridines with nucleic acids and other compounds 482

MUNYON, W. H. and MERCHANT, D. J., The relation between glucose utilization, lactic acid production and utilization and the growth cycle of L strain fibroblasts 490

WEISS, L., Studies on cellular adhesion in tissue culture. I. The effect of serum 499

WEISS, L., Studies on cellular adhesion in tissue culture. II. The adhesion of cells to gel surfaces 508

BRIEF NOTES

LANG, C. A., Cytochrome *c* reductase activities during development 516

SHARP, J. A., A modification of the rose perfusion chamber 519

HALVORSEN, H. O. and GORMAN, J., The abnormal pattern of protein synthesis in *Pseudomonas azotogensis* in the presence of hexetidine 522

MATEYKO, G. M. and KOPAC, M. J., Isopycnotic cushioning for density gradient centrifugation 524

WOLFGRAM, F. and ROSE, A. S., The histochemical demonstration of dehydrogenases in neuroglia 526

KURIKI, Y. and OKAZAKI, R., Deoxyribosidic compounds in a thymine-requiring mutant of *Escherichia coli* 530

TAYLOR, J. J., The demonstration of photochemical reducing sites in *Chromatium* sp. 533

FRACCARO, M. and LINDSTEN, J., Observations on the so called "sex chromatin" in human somatic cells cultivated *in vitro* 536
RENDI, R. and HULTIN, T., The effect of 2-mercaptoethylamine and of dichlorophenolindophenol on the activation of amino acids and their incorporation into S-RNA 540
CALCUTT, G. and DOXEY, D., The measurement of tissue-SH 542
HULTH, A. and WESTERBORN, O., Experimental production of dwarfs in rabbits with papain 543
BEARN, J. G. and KIRBY, K. S., Failure of deoxyribonucleic acid to produce pigment changes in the albino rat 547
POWERS, E. L., WEBB, R. B. and EHRET, C. F., An oxygen effect in dry bacterial spores and its temperature dependence 550
NAKAMURA, M. and EDWARDS, JR., P. R., Ribonuclease and desoxyribonuclease in *Entamoeba histolytica* 555
HILLIS, W. D. and BANG, F. B., Cultivation of embryonic and adult liver cells on a collagen substrate 557
TANDLER, C. J., The silver-reducing property of the nucleolus and the formation of prenucleolar material during mitosis 560
HÖGLUND, G., Determination of strontium in bone by X-ray fluorescence spectroscopy 565
LENHOFF, H. M., Migration of ^{14}C-labeled cnidoblasts 570
SIMKOVIC, D., Contribution to the method of cultivation of cells on a transparent collagen gel 573
SEERY, V., A comparative study of the viscosity of nuclear gels from vertebrate tissues 577
FRANKS, L. M., A factor in normal human serum that inhibits epithelial growth in organ cultures 579
WADDINGTON, C. H. and SIRLIN, J. L., The changing pattern of amino acid incorporation in developing mesoderm cells 582
RENDI, R., On the occurrence of intramitochondrial ribonucleoprotein particles 585
KIHLMAN, B. A., Effect of nitric oxide on the production of chromosomal aberrations by X-rays 588
KIHLMAN, B. A., Studies on the production of chromosomal aberrations by visible light: the effects of cupferron, nitric oxide and wavelength . . . 590
